

LITHIUM ION BATTERY CELL 18650-3.6V-2600mAh

AntBatt lithium ion (Li-NCM) battery technology delivers high discharge power and high energy density together with excellent safety performance and extensive life cycling.

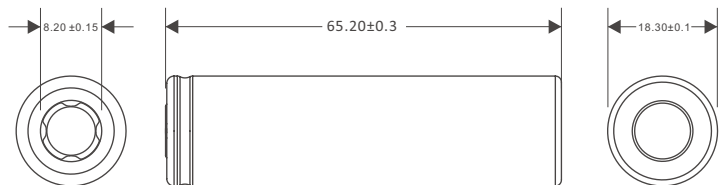

Characteristics Curves

Cell Technical Data

Cell Size	18(Dia)x65(H)mm
Cell Weight	45.0g
Rated Capacity(0.2C/25°C)	2600mAh
Nominal Voltage	3.6V
Cell AC Impedance	≤35mΩ
Cell Energy Content	9.36Wh
Cell Energy Density	208.0Wh/kg
Charge Condition	CC/CV 4.2VDC
Max. Charge Current	1.3A
Discharge Cut-off Voltage	2.75V
Max Con. Discharge Current	5.2A
Pulse Discharge Current	8A (5s)
Cycle Life (100%DOD/1C/>70% remain)	>1000 cycles
Cycle Life (50%DOD/1C/>70% remain)	>2000 cycles
Charge Temperature	0°C-55°C
Discharge Temperature	-20°C-60°C
Storage Temperature	-20°C-55°C

Cell Dimension (mm)

Applications

- Solar & Wind Energy Storage
- Electric Vehicles
- Backup Power Supply
- All Electronic Equipments
